

# Wound Management Resource Program

## Features

- Modularized self-paced interactive online program
- Suitable for all health care professionals who practice wound care including registered and enrolled nurses.
- Developed in association with current Australian Wound Care Specialists
- Equivalent to approximately 130 hours of learning.
- Online webinars with wound management specialist
- Exit at end of program with assessment and certificate.
- Group bookings have the option of a clinical workshop with a wound management specialist.

## Graduate of this program will be able to:

- Apply understanding of normal and altered wound healing processes to holistic patient assessment and care planning.
- Critically evaluate wound care management plans in their clinical practice
- Understand the criteria for referral to relevant specialists.
- Apply recognised professional wound care standards in clinical practice.

## Assessment

- Interactive activities, case studies and online assessment within each module.

## Endorsements:

- Wounds Australia (WA)
- The Australian Primary Health Care Nurses Association (APNA)

## Program Cost

- Full Program – AUD \$980
- Wounds Australia/APNA members AUD \$900
